

MASTER OF SCIENCE IN ENGINEERING MANAGEMENT

POWER THE NEXT ERA OF LEADERSHIP

The **MSEM program** serves a synergistic purpose by linking the application of engineering and management to systematically uncover and sustain a competitive advantage. Engineering spans a myriad of subject areas that often incorporates solutions from evolved concepts, design aspects, processes, and technologies, as well as the management of people and projects.

PROGRAM HIGHLIGHTS

- A multidisciplinary global program
- Focused on global engineering management perspectives
- Real-world problem and solution settings
- Evolving managerial practices based on different industries
- A comprehensive engineering management approach
